## HELLO!

Welcome to the 2023-2024 Gulley Greenhouse Young Plant Catalog

At Gulley Greenhouse we specialize in custom growing plugs and liners of perennials, herbs, ornamental grasses, and specialty annuals.

Our passion is to provide finished growers with a wide selection of high quality young plants to choose from. Having been established as a family business for over 40 years, we're proud to consider ourselves connected to the industry. We do our best to stay at the forefront of the new technology and variety advancements that are being made every year (and every day!)

## THANK YOU

Thanks to all of our customers for your continued support! We sincerely appreciate your orders and the confidence you've shown in our products and company. As always, we strive to produce quality plants perfectly suited for easy production and successful sales to the end consumer.

We're looking forward to another great season, with lots of new varieties to offer and the same quality you've come to expect.

PLEASE SEE GENERAL  
INFORMATION ON PAGE 2.

## LEGEND

 Camera icon denotes that an image is displayed of the selected variety

### HEIGHT / WIDTH

Indicates the height or width of the mature plant.

### BLOOM SEASON

The time of year to expect blooming: SP: Spring, SU: Summer, F: Fall, E: Early, L: Late (EF = Early Fall)

### LIGHT

○ = Full Sun    ◐ = Part Shade    ● = Full Shade

### ZONE

Indicates the general USDA hardiness zone.

### TRAY SIZE / LEAD TIME

Will generally be noted as: ●96 (8 weeks)

# GENERAL INFORMATION

## WHERE IS GULLEY GREENHOUSE?

Our greenhouse is located in Fort Collins, Colorado which is about 60 miles (1 hour) north of Denver. Denver International Airport is the closest major airport to our facility.

## PRICES:

Our young plants are sold exclusively through our horticultural broker network, so please contact the broker of your choice for current pricing. Our complete broker listing can be found on page 4.

Many varieties are patent protected and have associated patent fees, royalties, and required tags. Your broker can also provide this information.

## DISCOUNTS:

- **2% Early Order Discount:** All orders placed before Friday October 13, 2023 will automatically receive an Early Order Discount of 2%. The EOD will be applied in addition to any applicable volume discount, up to 7%. Several specific items are not eligible for the EOD, please check with your broker.
- **Volume Discounts:**  
Volume discounts are available on a per-order basis. Orders can span multiple ship weeks but must be placed at the same time. Specialty Annuals and Fairy Flowers® are not eligible for volume discounts.
  - **Perennial Volume Discount:** Applies to all sizes of Perennials, Herbs, and Grasses
    - 50+ trays: 3% discount**
    - 100+ trays: 5% discount**
    - 150+ trays: 7% discount.**
- We are happy to offer a custom quote on orders larger than 200 trays.

## ORDERS / LEAD TIMES:

To ship your order complete, we need it at least 1 week prior to the longest lead time for each variety (listed by each plant in the catalog).

- Except when ordering off availability, all orders are custom grown to the lead time listed in the catalog. Any cancellations or changes to custom grown orders will not be accepted after plants have been sown or stuck, according to their specific lead time. Cancellations to availability orders must be made by noon Monday the week before the order ships.
- Custom 32cell and 50cell vernalized liner orders must be placed by August 1, 2023. Due to vernalization and growing space requirements, we will not be able to add to our 32cell production after this date. Please see page 19 for more information.
- Plants noted as 'availability only' are in short supply or have a very long lead time, so we may not be able to guarantee a specific ship date. But, we'll put you on the list and call when plants are available!
- Orders shipping to Oregon and Canada have specific phytosanitary requirements. All orders shipping to these locations must be finalized at least one week before the requested shipdate.

## MINIMUMS:

- Our minimum for 196, 96, 50, and 72 tray sizes is one standard 4-tray box (22"x12.5"x18"). Tray sizes can be combined to fill a box. Pull & Pack may be available for larger Cordyline and Anigozanthos orders, please call for options.
- 25cell Fairy Flower® trays are packed 12 to a box, three per level. Please order in increments of 3 trays. See page 9 for more information regarding the Fairy Flowers® program.
- The 32cell minimum is 1 box, most often packed 3 trays to a box with dimensions of 22"x12.5"x18". Please see page 19 for more information on our 32cell program.

## TAGS:

- Picture tags are available to ship with all varieties if requested; please ask your broker for specific tag pricing.
- Several patent protected varieties *require* a tag to be purchased with the plants; your broker will have prices and a list of these varieties as well.
- **All tags will be shipped directly from MasterTag at no additional charge, to arrive by the time the plants are delivered.** Tag orders download to MasterTag on Tuesday at noon, so all changes to tag requests must be made by then. Tag orders returned will incur a 30% restocking fee and shipping charges. Please make sure tag orders and shipping addresses are correct when the order is placed!
- Don't forget to order tags...tag orders not accompanying the liners will be assessed a \$12.00 handling charge.

## SHIPPING:

Please tell us how you want your plants to be shipped! You are the best judge of shipping methods to your area, so please inform your broker. All shipping is FOB Gulley Greenhouse, Fort Collins CO.

- Boxes, inserts, packing, winterpack (if necessary) and handling fees will be included into one simple flat fee per tray, regardless of size or how many trays are on the order.
- Shipments can be scheduled via air, FedEx, FedEx Freight, and UPS (at customer risk and request). Please let us know if you would like to ship on your company's account.
- Large orders may be palletized if applicable or sent on a refrigerated truck; we want to get you the best option on freight!
- We will not ship when the temp. is below 25°
- We will not ship later than Wednesday to ensure the plants arrive before the weekend.
- We offer local delivery in our company truck to customers within a 150-mile radius of Fort Collins; charges vary by mileage.
- Pick-up orders can also be scheduled in advance between 8am and 3pm Wednesday - Friday.

## CLAIMS:

Gulley Greenhouse must be notified within 72 hours upon receipt of plants if you have shipping or quality concerns. No claims will be honored unless notification is made within this time limit and accompanied by a picture. Please notify your broker IMMEDIATELY with any problems.

## THANK YOU...

We sincerely thank you for choosing Gulley Greenhouse. If you do not see what you are looking for in this catalog or have any other questions, please don't hesitate to call us. We look forward to the opportunity to work with customers like you in the business we love...plants!

## RESPONSIBLY GROWN NEONICOTINOID FREE!

ALL of our young plants are grown responsibly, without using chemicals that contain neonicotinoids. In fact, our growers are employing the help of many beneficial insects in our greenhouses these days!

Join us in the cause to protect bees and our environment!

# A SIZE FOR EVERY NEED

## TRAY SIZES:

Since every grower is unique, we offer multiple tray sizes to give you options based on your specific needs and preference. Almost every variety on our list is grown in a 98-cell tray, with many perennials having the option of 200-cell, 72-cell, 50-cell, and 32-cell trays as well. Specialty annuals are most likely grown in larger 72-cell or 50-cell liners.

**We are happy to custom grow in any size tray at your specific request with enough lead time.**

## WHAT TRAY SIZE IS RIGHT FOR YOU?

### • Savings on Freight

For our customers that regularly purchase 72-cell trays, the 98-cell liner is very close to the same size but contains 26 more plants per tray. This will add up to a huge savings on freight!

### • Mass Production Potential

For our customers that regularly purchase 128-cell trays, we offer a comparable 200-cell tray. This makes major economical sense for growers that are producing larger quantities of 2.5" to 4" finished containers.

Almost all groundcover varieties we list will be offered in the 200-cell size, perfect for planting into cell packs with a quick turn-around time.

### • Rapid Finish Option

Consider a 50-cell or 32-cell liner if you are looking to finish a gallon or 2-gallon pot quickly without as much growing time. Our large liners have been bulked and cooled and will finish a gallon in 4-8 weeks depending on growing conditions.

### • Increased Plant Health

Compared to a 128-cell tray, our 98-cell size has better airflow and more soil volume per cell, offering the benefits of a larger plant with a more vigorous root system.

As finished growers ourselves, we have been experimenting with different sized trays throughout the years. We think this assortment of sizes spans the many needs that you, the finished grower, encounters every season.

We appreciate any feedback you might have about our sizes!

200-cell (sold as 196)

98-cell (sold as 96)

72-cell (sold as 72)

50-cell (sold as 50)

32-cell (sold as 32)

*\*Images are not to scale*

Our 98-cell tray (sold as 96) is very deep with large cells. Many of our grower customers have compared them with standard 72-cell trays and found them to finish the same container just as quickly.

Comparison picture below (72-cell tray on left, 98-cell tray on right).

# MINIATURE PLANTS... HUGE PERSONALITY!

## WHAT ARE FAIRY FLOWERS®?

The plants in the Fairy Flowers® line have been selected because they naturally stay small or can be easily trimmed to stay tiny. These foliage plants and flowers thrive as outdoor plants in the height of the growing season, and as indoor plants the remainder of the year. With proper pruning and care, Fairy Flowers® are designed to flourish in small spaces indefinitely.

There are three series within the Fairy Flowers® line; Original Fairy Flowers®, Gargoyle™ Succulent Fairy Flowers® and Terrarium Fairy Flowers®.

- **Original Fairy Flowers®:** A collection designed to be planted inside or outside. Full of beautiful flowers, foliage colors and textures.
- **Gargoyle™ Gardening Succulent Fairy Flowers®:** Unique succulent varieties add a prehistoric touch, perfect in warm dry spots.
- **Terrarium Fairy Flowers®:** Plants selected to thrive in heat and humidity, shade and indoor tropical environments.

Each plant comes with a beautiful tag that introduces gardeners to both the fairy and the flower he or she has created. With custom artwork and unique stories for every plant, customer's will want to get to know each and every one!

## AVAILABILITY, SIZES AND VARIETIES

All varieties can be custom grown for lead time (listed for each tray size on the following pages). Select 25 & 96 cell trays will be on availability at certain times of the year. Availability is not guaranteed however, so it is recommended to place orders as early as possible. The 196 tray size must be custom grown for lead time

Pictured here is an assortment of 25cell strip trays; perfect for the grower that wants a large assortment of different varieties.

## PRICES

Please contact your broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale. Fairy Flowers® are not eligible for volume or early order discounts.

## TAGS, POTS AND TRAYS

The Fairy Flowers® tag is required for every Fairy Flower ordered, tags will automatically be added to every order. Tags will be shipped directly to Master-Tag at no additional charge, to arrive there by the time the plants do. Growers may select the pots and trays which best suit their growing operation and sales venue.

## MINIMUMS AND PACKING

- 25cell tray: 3 tray minimum. Must order in increments of 3 (packed 3 in a single box, 12 in a full box)
- 96cell tray: 4 tray minimum, (packed 4 to a box).
- 196: 4 tray minimum, (packed 4 or 6 to a box).

ALSTROEMERIA 'Colorita® Yentl'  
ThinkPlants/  
Royal Van Zanten

## PROGRAM DETAILS

### SIZES:

The majority of our specialty annuals are available in the 50-cell size (Alstroemeria), 72-cell size (Cordylina, Ficinia, Senecio and Streptocarpus), and 96-cell (Anigozanthos and SunBeckia). Not all varieties are produced year-round, in fact most are based on pre-booked speculation. Please check with us for availability and potential ship date windows.

### PRICES:

Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

Specialty annual orders are not eligible for the Early Order discount or volume discounts, but we are happy to provide a custom quote for large quantities. Please talk to your broker.

### NEW VARIETIES:

We have added many interesting new annual varieties to our 2024 line-up! Look for the 'New' icon throughout the catalog to find these new 2024 additions.

NEW  
2024

### PULL & PACK SHIPPING OPTION:

Select Cordylina and Anigozanthos varieties have the option to be shipped out of their trays (pull & pack) to fit more trays in a single box. Our growers will determine if the crop is well-rooted enough to be eligible for this method of shipping. Please let our sales office know if pull & pack is an option that you would like to pursue.

### QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at [gulleygh@gulleygreenhouse.com](mailto:gulleygh@gulleygreenhouse.com).

## STREPTOCARPUS CAPE PRIMROSE

**STREPTOCARPUS 'Ladyslippers®' Series** With similarities to their African Violet cousins, Streptocarpus feature large exotic flowers that bloom year-round on easy to care for plants. Great indoors as houseplants, or outside for summer in part-sun garden areas and patios. The variety selection features bicolors and solids with saturated colors and intricate veining patterns! *GreenFuse Botanicals.*

Height: 8-12" Width: 10" Light: ☉-☿

	<b>'Ladyslippers® Azure'</b> A stunning light and dark blue bicolor with a glowing yellow center.	• 72 (Avail only)
	<b>'Ladyslippers® Blue Ice'</b> Icy blue petals feature contrast-ing dark blue veins and a bright white center.	• 72 (Avail only)
	<b>'Ladyslippers® Blueberry'</b> A multitude of clear blue flowers with darker centers.	• 72 (Avail only)
	<b>'Ladyslippers® Blue White Center'</b> Florific periwinkle blue petals are contrasted by a striking star-shaped white center.	• 72 (Avail only)
	<b>'Ladyslippers® Deep Blue Vein'</b> Dark violet-blue flowers feature an almost black center with dark veining.	• 72 (Avail only)

### STREPTOCARPUS 'Ladyslippers®' Series (continued):

Height: 8-12" Width: 10" Light: ☉-☿

	<b>'Ladyslippers® Grape Ice'</b> Plum-violet veins are highlighted by white edges.	• 72 (Avail only)
	<b>'Ladyslippers® Red Bicolor'</b> Exotic flowers feature a two-tone combination of brilliant red and pale pink.	• 72 (Avail only)
	<b>'Ladyslippers® Strawberry Ice'</b> True pink flowers are frosted with bright white.	• 72 (Avail only)
	<b>'Ladyslippers® White Ice'</b> Dainty pure white flowers feature ice-blue veins.	• 72 (Avail only)
	<b>'Ladyslippers® Yellow Blue Eye'</b> Creamy butter yellow flowers surround a stunning dark blue eye.	• 72 (Avail only)
	<b>'Ladyslippers® Yellow Pink Cap'</b> Frilly bottom petals are a soft peachy yellow, topped with bright rose upper petals.	• 72 (Avail only)

# PERENNIALS

ECHINACEA 'Moab Sunset'  
TerraNova

## PROGRAM DETAILS

### SIZES:

Perennials are available in 200-cell (sold as 196), 98-cell (sold as 96), or 72-cell sizes, depending on the variety. A majority of varieties are also available in a vernalized 50 or 32-cell large liner (varieties listed on page 20).

### PRICES:

Please contact your horticultural broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker; our complete broker listing is on page 4. Additional patent fees, royalties, and tag & marketing fees may apply and will also be available from your broker. Also please see Volume and Early Order Discount information on page 2.

### NEW VARIETIES:

NEW  
2024

We have added tons of interesting new varieties to our 2024 line-up! Look for the 'New' icon throughout the catalog to find these hot new 2024 additions.

### AFFILIATIONS:

We are closely affiliated with several brands and plant breeders; please see page 5-6 for variety listings.

### VERNALIZATION:

Most of our perennials are first-year blooming and do not require vernalization. If you have questions about which varieties will need to be vernalized for spring flowering, please give us a call and we can help you put together a program. All of our 50-cell and 32-cell liners are vernalized, bulked and ready to pop into a gallon for spring sales.

### QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at [gulleygh@gulleygreenhouse.com](mailto:gulleygh@gulleygreenhouse.com).

 Camera icon denotes that an image is displayed of the selected variety

# LARGE LINERS, LARGE IMPACT

## VERNALIZED 50'S and 32's

Our 50-cell and 32-cell programs include a wide selection of perennials that are bulked, cooled, and are bursting with stored energy come spring! You will receive a nicely rooted pre-finished liner ready to move up into a larger pot size. This treatment dramatically reduces overall crop time in the finished container.

## AVAILABILITY AND VARIETIES

All of the varieties on the following list will be grown on availability, ready to ship in January 2024 through April 2024 (week 1 - week 17). Orders will be taken on a first-come, first-serve basis.

**Please submit 32cell orders on their own separate PO, as we have a different process for pulling and packing that size.**

If you see a variety within the main catalog that is not offered as a 50-cell or 32-cell (on these pages), we may be able to custom grow it for you. Please check with us for a custom quote! Order minimums and lead times will apply. Custom grow orders will not be accepted after August 1, 2023 due to production, space & vernalization requirements.

## PRICES

Please contact your broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

## DISCOUNTS

- 32-cell orders can be combined with other perennial sizes towards the perennial volume discount (see page 2 for more information).
- We offer a 2% Early Order Discount for all orders placed before October 13, 2023.

## TAGS

Some varieties require tags, please contact your broker for required tag and royalty information. For plants that do not require tags, picture tags are available to add to your order. Please let us know if you want to add tags!

## SHIPPING

32-cell trays are shipped 3 trays per box. Each tray weighs 8-10 pounds, (approximately 30 lbs per box). 50-cell trays are shipped 4 trays per box, with a full box weight of 25 lbs per box. Box dimensions are 22"x12.5"x18" for both sizes.

These plants have been maintained in cold conditions, so they can be shipped by ground freight at customer's risk. We will do our best to help source the safest and most economical way to ship your orders.

All boxing, packing and handling costs will be included in one flat fee per tray, regardless of size or how many trays are on the order. We ship on Monday or Tuesday of each week to ensure that plants arrive before the weekend. Please see page 2 for more shipping information.

## MINIMUM

32-cell: 1 case per shipment (3 trays of 32).  
50-cell: 1 case per shipment (4 trays of 50).

## CLAIMS

Please see page 2 for claim protocol.

32-cell GAILLARDIA 'Sunset Celebration'

50-cell DIANTHUS 'Kahori'

32-cell HEUCHERA  
'Carnival Watermelon'

## THE BENEFIT OF LARGER LINERS

Let us do some of the work for you! Each 50-cell and 32-cell liner is given at least 10 weeks to root (and receive a cold treatment if necessary per that variety).

Planting from larger liners will reduce your finish times in the spring. Plan on 4-6\* weeks to finish a gallon, and 2-3\* weeks to finish a quart. (\*Finish times may vary depending on your specific size selected, growing environment and temperatures).

## ACHILLEA YARROW

	<b>ACHILLEA ageratifolia 'Greek'</b> Short, gray-green creeper with white flowers.	• 96 (6 weeks)
	Zone: 3-9 Height: 4"-6" Light: ○ Bloom Season: SU	
	<b>ACHILLEA 'Little Moonshine'</b> Same bright golden-yellow flowers as 'Moonshine', but with a compact and easy to manage habit. Day-length neutral breeding means earlier blooming. <i>Must Have Perennials 'ACBZ0002' PP#28179.</i>	• 96 (8 weeks) • 32 (Avail only)
	Zone: 4-8 Height: 9"-12" Light: ○ Bloom Season: SU/EF	
	<b>ACHILLEA millefolium 'Desert Eve™' Series:</b> Compact series of 6 strong colors features sturdy plants that are very early to bloom. <i>ThinkPlants / Syngenta.</i>	
	Zone: 4-8 Height: 10"-12" Light: ○ Bloom Season: LSP/EF	
	<b>'Desert Eve™ Deep Rose'</b> Dark rose pink.	• 96 (6 weeks) • 32 (Avail only)
	<b>'Desert Eve™ Red'</b> Deep ruby red.	• 96 (6 weeks) • 32 (Avail only)
	<b>'Desert Eve™ Terracotta'</b> Salmon/peach.	• 96 (6 weeks) • 32 (Avail only)
	<b>'Desert Eve™ Yellow'</b> Deep true yellow.	• 96 (6 weeks)
	<b>ACHILLEA millefolium 'Paprika'</b> Orange-red blooms have golden center. Very drought tolerant.	• 96 (6 weeks) • 32 (Avail only)
	Zone: 4-9 Height: 24" Light: ○ Bloom Season: SU/EF	
	<b>ACHILLEA millefolium 'Skysail' Series:</b> New breeding features extra-large umbels that rise on strong, upright stems covering the entire height of the plant. First year flowering and very showy. <i>Dummen Orange.</i>	
	Zone: 3-9 Height: 14"-18" Light: ○ Bloom Season: LSP/EF	
	<b>'Skysail Bright Pink'</b> Brilliant pink.	• 96 (6 weeks)
	<b>'Skysail Fire'</b> Fiery scarlet red	• 96 (6 weeks)

### ACHILLEA millefolium 'Skysail' Series (continued):

Zone: 3-9 Height: 14"-18" Light: ○ Bloom Season: LSP/EF

	<b>'Skysail Yellow'</b> Clear bright yellow.	• 96 (6 weeks)
	<b>ACHILLEA tomentosa 'Goldie'</b> Long-flowering golden yellow flowers above ground hugging foliage.	• 196 (6 weeks) • 96 (8 weeks)
	Zone: 4-8 Height: 6"-8" Light: ○ Bloom Season: SU	
	<b>ACHILLEA x 'Moonshine'</b> Soft, feathery, gray-green foliage is complimented by buttery yellow panicle flowers. A classic!	• 96 (8 weeks) • 50V (Avail only) • 32 (Avail only)
	Zone: 4-8 Height: 18"-24" Light: ○ Bloom Season: SU	

## AEGOPODIUM SNOW ON THE MOUNTAIN

	<b>AEGOPODIUM podagraria 'Variegatum'</b> Massing groundcover with variegated green and white foliage. White panicle flowers in summer. Limited availability.	• 50 (Avail only)
	Zone: 4-8 Height: 6" Light: ○-● Bloom Season: SU	

## AGASTACHE HYSSOP

	<b>AGASTACHE aurantiaca CORONADO®</b> Orange-yellow flower color not found in other Agastaches. Very xeric. <i>Plant Select 2001.</i>	• 196 (6 weeks) • 96 (7 weeks) • 32 (Avail only)
	Zone: 4-8 Height: 15" Light: ○-● Bloom Season: SU	
	<b>AGASTACHE 'Blue Boa'</b> Deep violet blue flower spikes are long, wide and extremely showy. Unlike any other Agastache. <i>ThinkPlants / TerraNova PP#24050.</i>	• 96 (6 weeks)
	Zone: 5-10 Height: 24"-30" Light: ○-● Bloom Season: SU/F

## CAMPANULA BELLFLOWER *continued*

 **CAMPANULA glomerata 'Superba'** Deep violet clustered flowers in summer. Great rock garden plant. • **96** (13 weeks)

Zone: 4-9 Height: 15" Light: ☉-☿ Bloom Season: SU

 **CAMPANULA persicifolia 'Blue'** (Peach-leaved Bellflower) Large bell-shaped blue flowers. • **96** (15 weeks)

Zone: 4-9 Height: 24"-36" Light: ☉-☿ Bloom Season: SU

 **CAMPANULA poscharskyana** (Serbian Bellflower) Light lavender/blue flowers on fast growing groundcover. • **96** (15 weeks)

Zone: 3-7 Height: 6"-12" Light: ☉-☿ Bloom Season: SU

 **CAMPANULA rotundifolia 'Thumbell Violet'** Blue Bells of Scotland. Bell-shaped flowers above foliage, uniform habit. • **96** (15 weeks)

Zone: 3-8 Height: 10"-12" Light: ☉-☿ Bloom Season: SU

## CATANANCHE CUPID'S DART

 **CATANANCHE caerulea** Lavender-blue daisy-like flowers on short plant. Excellent cut/dried flower source. • **96** (9 weeks)

Zone: 3 Height: 24" Light: ☉ Bloom Season: ESU

## CENTAUREA CORNFLOWER

 **CENTAUREA montana 'Amethyst Dream'** Deep, dark violet-purple color; darker than other varieties. Drought resistant. *Must Have Perennials PP#20781.* • **72** (6 weeks)

Zone: 3-9 Height: 14"-16" Light: ☉ Bloom Season: ESU

 **CENTAUREA montana 'Amethyst In Snow'** Striking white flowers with purple centers. *Must Have Perennials PP#18284.* • **72** (6 weeks)

Zone: 3-9 Height: 14"-18" Light: ☉ Bloom Season: ESU

## CENTRANTHUS VALERIAN

 **CENTRANTHUS ruber** Clustered crimson flowers on blue-green foliage, excellent in masses. Drought tolerant. • **96** (7 weeks)  
• **50V** (Avail only)  
• **32** (Avail only)

Zone: 5-9 Height: 18"-36" Light: ☉-☿ Bloom Season: LSP/SU

 **CENTRANTHUS ruber alba** Same as 'ruber' above, but with clusters of white flowers. • **96** (7 weeks)

Zone: 5-9 Height: 18"-36" Light: ☉-☿ Bloom Season: LSP/SU

## CERASTIUM SNOW IN SUMMER

 **CERASTIUM tomentosum Improved** Attractive low growing evergreen with silver-gray foliage and white flowers. Use as a groundcover or edging plant in xeric gardens. • **196** (5 weeks)  
• **96** (6 weeks)  
• **72** (8 weeks)  
• **32** (Avail only)

Zone: 2-7 Height: 6"-12" Light: ☉ Bloom Season: LSP

 **CERASTIUM tomentosum 'YoYo'** More compact and tighter growing than the species, dainty white blooms. • **196** (5 weeks)  
• **96** (6 weeks)

Zone: 2-7 Height: 4"-8" Light: ☉-☿ Bloom Season: LSP/SU

## CERATOSTIGMA PLUMBAGO

 **CERATOSTIGMA plumbaginoides** Forms 12"-18" wide mat; green foliage turns mahogany in fall. Brilliant blue flowers. • **196** (5 weeks)  
• **96** (7 weeks)  
• **32** (Avail only)

Zone: 5-8 Height: 8" Light: ☉-☿ Bloom Season: SU/LSU

## COREOPSIS TICKSEED *continued*

**COREOPSIS 'Leading Lady' Series:** Extra-large, bright clear yellow flowers in a variety of unique petal arrangements. Flowers burst out above a well-controlled habit. *Dummen Orange.*

Zone: 5-9 Height: 18"-24" Light: ○ Bloom Season: SU/F

 **'Leading Lady Charlizé'** Large, double, pom-pom shaped blooms explode in late spring. • 96 (6 weeks)

 **'Leading Lady Lauren'** Two layers of ruffled bright yellow petals surround a golden center. • 96 (6 weeks)

 **'Leading Lady Sophia'** Fluted yellow petals give flowers a distinct star-shaped appearance. • 96 (6 weeks)

 **COREOPSIS 'Moon Swirl'** Easy to grow double flowering coreopsis with medium vigor and extra-large rounded flowers. Extremely showy! Great in perennial combination pots. *Dummen Orange.* • 96 (6 weeks)

Zone: 4-9 Height: 18"-20" Light: ○ Bloom Season: LSP/F

**COREOPSIS 'Reina™' Series:** Daylength neutral plants means the Reina series will be the first into flower! Flowers are deep gold in color, with strong stems that hold flowers upright. *GreenFuse Botanicals.*

Zone: 4-9 Height: 18"-20" Light: ○ Bloom Season: LSP/F

 **'Reina Gold™'** Large semi-double golden flowers. • 96 (6 weeks)

 **'Reina Single Giant Gold™'** This largest flowering Coreopsis is also the first to bloom, as seen in many trials across the US. 3-4" golden flowers are remarkable! • 96 (6 weeks)

**COREOPSIS 'UpTick™' Series:** Grandiflora hybrid with a tidy compact habit and huge dazzling bicolor flower options. These beauties are day-length neutral and will bloom year round, during peak sales! *Darwin Perennials.*

Zone: 5-9 Height: 12"-14" Light: ○ Bloom Season: SP/F

 **'UpTick™ Cream'** Soft creamy white flowers with golden centers. *Darwin Perennials PP#28964.* • 96 (6 weeks)

 **'UpTick™ Cream & Red'** Buttery yellow petals feature a dark red contrasting eye. *Darwin Perennials PP#28866.* • 96 (6 weeks)  
• 32 (Avail only)

 **'UpTick™ Gold & Bronze'** A bright bronze-red eye is surrounded by yellow tips. Extremely eye-catching! *Darwin Perennials PP#28882.* • 96 (6 weeks)  
• 50V (Avail only)  
• 32 (Avail only)

 **'UpTick™ Red'** Deep burgundy-red centers are fringed with contrasting gold. *Darwin Perennials PPAF.* • 96 (6 weeks)  
• 50V (Avail only)  
• 32 (Avail only)

 **'UpTick™ Yellow & Red'** Clear yellow petals surround a dark red eye with yellow centers. *Darwin Perennials PP#28865.* • 96 (6 weeks)  
• 32 (Avail only)

 **COREOPSIS verticillata 'Crème Brulee'** Upgrade to 'Moonbeam'. Larger, deeper yellow flowers, greater vigor. *Must Have Perennials PP#16096.* • 196 (5 weeks)  
• 96 (6 weeks)

Zone: 4-9 Height: 20"-24" Light: ○ Bloom Season: SU/F

 **COREOPSIS verticillata 'Moonbeam'** Profusion of pale yellow flowers all summer long, thread-leaf foliage. • 96 (7 weeks)  
• 32 (Avail only)

Zone: 3-9 Height: 24" Light: ○ Bloom Season: SU/F

**COREOPSIS verticillata 'SIZZLE & SPICE™' Series:** Compact and rounded habits are covered with flowers all summer. Extra bright and spicy colors will sizzle at retail! *Walters Gardens, Inc.*

Zone: 5-9 Height: 15"-18" Light: ○ Bloom Season: ESU/EF

 **'SIZZLE & SPICE™ Crazy Cayenne'** Fiery sunset orange petals deepen towards the center of each flower. *Walters Gardens, Inc. PPAF.* • 96 (8 weeks)

• 96 (8 weeks)

Zone: 4-8 Height: 2"-3" Light: Bloom Season: SU

## PRATIA

**PRATIA angulata** White Star Creeper. Mat forming plant covered with white star-shaped flowers. • 196 (5 weeks)  
• 96 (7 weeks)

Zone: 6-10 Height: 2"-3" Light: - Bloom Season: SP

**PRATIA pedunculata 'County Park'** Forms a tight mat with violet-blue flowers; fast growing. • 196 (6 weeks)  
• 96 (8 weeks)

Zone: 5-10 Height: 2"-4" Light: - Bloom Season: SP/SU

## PRIMULA PRIMROSE

**NEW! PRIMULA vulgaris 'Oakleaf Blue'** Velvety violet blue flowers have happy yellow centers. *Availability is seasonal, please call for more information. InnoFlora PPAF.* • 72 (Avail only)  
• 32 (Avail only)

Zone: 4-8 Height: 12"-18" Light: - Bloom Season: SP/LSP

**PRIMULA vulgaris 'Oakleaf Magenta'** Dark magenta-red flowers have contrasting yellow centers. Oak-leafed foliage stays neat and tidy in clumps. *Availability is seasonal, please call for more information. InnoFlora PPAF.* • 72 (Avail only)  
• 32 (Avail only)

Zone: 4-8 Height: 12"-18" Light: - Bloom Season: SP/LSP

**PRIMULA vulgaris 'Oakleaf Yellow Picotee'** Unusual oak-leaf shaped foliage is covered with masses of yellow flowers, edged in contrasting scarlet red. Great as a potted crop or hardy perennial selection! *Availability is seasonal, please call for more information. InnoFlora PPAF.* • 72 (Avail only)  
• 32 (Avail only)

Zone: 4-8 Height: 12"-18" Light: - Bloom Season: SP/LSP

## PRUNELLA SELF HEAL

**PRUNELLA grandiflora 'Lacy' Series:** Easy to grow groundcover with a profusion of flowers all summer.

Zone: 5-8 Height: 7" Light: - Bloom Season: SU

**'Lacy Blue'** Mid-blue flowers, dark green foliage. • 96 (8 weeks)

**'Lacy Deep Pink'** Carmine-pink flowers in summer. • 96 (8 weeks)

PSEPHELLUS simplicicaulis 'Bellina Pink'

PTEROCEPHALUS depressus  
Moroccan Pincushion

RATIBIDA  
columnifera Red

RATIBIDA  
columnifera Yellow

RUDBECKIA 'American Gold Rush'

PULMONARIA 'Silver Bouquet'

PULMONARIA 'Dark Vader'

RUDBECKIA 'Dakota Gold'

RUDBECKIA 'Denver Daisy™'

RUDBECKIA fulgida 'GoldBlitz'

RUDBECKIA fulgida 'Goldsturm'

## PSEPHELLUS PERSIAN CORNFLOWER

- PSEPHELLUS (Centaurea) simplicicaulis 'Bellina Pink'** This well-behaved clumping groundcover has fuzzy pin-cushion flowers from spring through summer. Xeric and drought tolerant once established. *Plant Select 2023.*
- 96 (8 weeks)
  - 32 (Avail only)
- Zone: 5-9 Height: 5"-10" Light: ○-● Bloom Season: SP/SU

## PTEROCEPHALUS

- PTEROCEPHALUS depressus Moroccan Pincushion** Low, mat-like evergreen leaves with dusty rose pincushion flowers on short stems. *Plant Select Petites 2017. Limited availability pending stock plant production, orders may be placed on a waiting list.*
- 96 (9 weeks)
- Zone: 4-8 Height: 3"-4" Light: ○ Bloom Season: SU

## PULMONARIA LUNGWORT

- PULMONARIA 'Dark Vader'** Silvery spotted foliage features a profusion of rose to dark blue flowers in spring. Mildew resistant with a habit that won't flop. *TerraNova.*
- 32 (Avail only)
- Zone: 4-8 Height: 10" Light: ●-● Bloom Season: SP/LSP
- PULMONARIA 'Silver Bouquet'** Spectacular silver foliage gives year-round interest for the shady garden. Large red to coral to blue flowers bloom in spring. *TerraNova PP#20059.*
- 32 (Avail only)
- Zone: 4-9 Height: 7"-8" Light: ●-● Bloom Season: SP/LSP

## RATIBIDA PRAIRIE CONEFLOWER

- RATIBIDA columnifera Red** Deep red flowers with yellow edges & protruding central cones. Native.
- 196 (6 weeks)
  - 96 (8 weeks)
  - 32 (Avail only)
- Zone: 4-10 Height: 24"-36" Light: ○ Bloom Season: SU
- RATIBIDA columnifera Yellow** Yellow flowers with protruding central cones. Native wildflower.
- 196 (6 weeks)
  - 96 (8 weeks)
- Zone: 4-10 Height: 24"-36" Light: ○ Bloom Season: SU

## RUDBECKIA BLACK-EYED-SUSAN

- RUDBECKIA 'American Gold Rush'** Golden flowers grace a naturally compact habit; hairy narrow leaves were bred for leaf spot resistance. *2020 AAS Winner, ThinkPlants / Intrinsic PP#28498.*
- 72 (Avail only)
  - 32 (Avail only)
- Zone: 4-9 Height: 18"-28" Light: ○-● Bloom Season: LSP/EF
- RUDBECKIA 'Dakota Gold'** The first large-flowered hirta type that is truly hardy to zone 5! Day-length neutral plants mean a much earlier & longer sales window! *GreenFuse Botanicals.*
- 72 (8 weeks)
- Zone: 4-9 Height: 18"-28" Light: ○-● Bloom Season: LSP/EF
- RUDBECKIA 'Denver Daisy™'** Striking long-rayed daisy with dark eye. Hybridized by Benary from the CO native Rudbeckia. *Plant Select 2009.*
- 196 (7 weeks)
  - 96 (8 weeks)
  - 50V (Avail only)
  - 32 (Avail only)
- Zone: 3-9 Height: 18"-28" Light: ○-● Bloom Season: LSP/EF
- RUDBECKIA fulgida 'GoldBlitz'** Compact plants are several weeks earlier to flower than Goldsturm without supplemental lighting, providing growers with an economical way to bring color to market sooner. Sunny yellow flowers, dark eyes.
- 196 (6 weeks)
  - 96 (8 weeks)
  - 32 (Avail only)
- Zone: 4-9 Height: 24" Light: ○ Bloom Season: SU/F
- RUDBECKIA fulgida 'Goldsturm'** Deep yellow daisy-like flowers with a contrasting black cone. Good cut flower.
- 196 (6 weeks)
  - 96 (8 weeks)
  - 50V (Avail only)
  - 32 (Avail only)
- Zone: 4-9 Height: 24" Light: ○ Bloom Season: SU/F

## STACHYS BETONY

 **STACHYS byzantina 'Lamb's Ear'** Fuzzy gray leaves form dense clumps. Upright spikes of magenta-pink flowers. • 96 (6 weeks)

Zone: 4-9 Height: 12"-18" Light: ○ Bloom Season: LSU/F

 **NEW! STACHYS byzantina 'Little Lamb'** Attractive velvety green leaves stay compact on low-growing plants. Shorter flower stalks make this variety ideal as a groundcover or in a small garden. *Darwin Perennials PPAF*. • 96 (7 weeks)

Zone: 4-8 Height: 2"-5" Light: ○-● Bloom Season: ESU/SU

 **STACHYS monieri 'Hummelo'** Large clumps of narrow green foliage is covered with sturdy spikes of lavender-rose flowers in early summer. This under-utilized and hardy perennial is sure to make a statement in any garden! • 96 (6 weeks) • 32 (Avail only)

Zone: 4-8 Height: 18"-20" Light: ○-● Bloom Season: ESU/SU

## TANACETUM PAINTED DAISY

 **TANACETUM coccineum 'Robinson's Giant Crimson'** Large, daisy-like carmine red flowers with yellow center; long stems make a great cut flower. • 96 (8 weeks)

Zone: 5 Height: 18"-24" Light: ○-● Bloom Season: ESU

 **TANACETUM coccineum 'Super Double Mix'** Excellent mix with high percentage of doubles, especially in second year. • 96 (8 weeks)

Zone: 5 Height: 24" Light: ○-● Bloom Season: SU

 **TANACETUM densum v. amanum 'Partridge Feather'** Mats of silver feathery foliage will thrive in dry gardens. Golden button flowers. *Plant Select 2010*. • 96 (7 weeks) • 32 (Avail only)

Zone: 4-9 Height: 3"-6" Light: ○-● Bloom Season: ESU

## TEUCRIUM GERMANDER

 **NEW! TEUCRIUM 'Harlequin's Silver' EVERSILVER™** **Germander** Thin silver leaves are covered with fragrant pink flowers in early summer. Superb variety for tough sites with great cold and heat tolerance. *Plant Select 2024*. • 96 (8 weeks)

Zone: 5-9 Height: 4"-6" Light: ○-● Bloom Season: ESU/SU

## THALICTRUM MEADOW RUE

**THALICTRUM aquilegifolium 'NIMBUS™' Series:** Massive clusters of puffy flowers bloom atop straight, vertical stems. Fern-like foliage is lush and bright green. *TerraNova*.

Zone: 5-9 Height: 28" Light: ○-● Bloom Season: LSP/SU

 **'NIMBUS™ Pink'** Puffs of lavender pink flowers atop darker stems. • 32 (Avail only)

 **'NIMBUS™ White'** Massive clusters of pure white flowers twinkle like stars. • 32 (Avail only)

 **THALICTRUM 'Black Stockings'** Tall, nearly black stems contrast with bright green lacy foliage. Airy lavender-rose flowers bloom in summer; vernalization recommended for a larger flower display. *TerraNova*. • 32 (Avail only)

Zone: 5-9 Height: 40"-48" Light: ○-● Bloom Season: SU

## THYMUS CREEPING CREEPING THYME

*Please see the Herb section on page 99 for edible varieties.*

 **THYMUS citriodorus 'Doone Valley'** Variegated green & yellow foliage that is lemon scented. Pale purple flowers. • 196 (5 weeks) • 96 (6 weeks)

Zone: 4 Height: 2"-4" Light: ○ Bloom Season: SU

 **THYMUS citriodorus 'Lime'** Fast grower, spreads rapidly. Small, lime-scented leaves with pink flowers. • 196 (5 weeks) • 96 (6 weeks)

Zone: 5-8 Height: 4"-6" Light: ○ Bloom Season: ESP

# GRASSES

FESTUCA  
ColorGrass® Festina

## PROGRAM DETAILS

### SIZES:

Perennial ornamental grasses are available in the 96 or 72-cell size, with selected varieties available in 32-cell large liners. The majority of Annual grasses are available in the 98-cell size (sold as 96). Not all varieties are produced year-round, so please check with us for availability.

### PRICES:

Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

Grass orders can be combined with herb and perennial orders to achieve the maximum perennial volume discount. We also offer an Early Order Discount of 2% for orders placed before October 13, 2023...talk to your broker!

### QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at [gulleygh@gulleygreenhouse.com](mailto:gulleygh@gulleygreenhouse.com).

## BASIL OCIMUM BASILICUM

Basil is great for flavoring tomato dishes, soups, sauces, meats, herb butters, and vinegars. Use as a garden border plant.

	<b>BASIL 'Aristotle'</b> Compact, topiary habit is great for pots. Easy to pick, classic basil aroma and taste.	• 96 (4 weeks)
Zone: 10	Height: 8"-10"	Light: ○
	<b>BASIL 'Bush'</b> Similar to spicy globe; tight growth habit.	• 96 (4 weeks)
Zone: 10	Height: 24"	Light: ○
	<b>BASIL 'Genovese' (Sweet)</b> Intensely scented strain of Sweet Basil. Popular with gourmet markets.	• 96 (4 weeks)
Zone: 10	Height: 24"	Light: ○
	<b>BASIL 'Genovese Red Freddy'</b> Marvelous dark red leaved version of Genovese. Smooth broad leaves with the same wonderful flavor, a culinary eye catcher!	• 96 (4 weeks)
Zone: 10	Height: 24"	Light: ○
	<b>BASIL 'Greek Columnar'</b> Upright/columnar growth habit makes this one ideal for small gardens.	• 96 (4 weeks)
Zone: 10	Height: 18"-36"	Light: ○
	<b>BASIL 'Pesto Perpetuo'</b> Beautiful variegated green/white foliage. Great basil taste; produces all season. Sunny Border Nursery PP#16260.	• 96 (4 weeks)
Zone: 10	Height: 18"-24"	Light: ○
	<b>BASIL 'Purple Ruffle'</b> Deep purple leaves with ruffled edges. Great accent for fresh cuisine.	• 96 (4 weeks)
Zone: 10	Height: 24"	Light: ○
	<b>BASIL 'Red Rubin'</b> Improved, large, purple-leaf variety, sweet scented foliage.	• 96 (4 weeks)
Zone: 10	Height: 18"	Light: ○
	<b>BASIL 'Siam Queen'</b> Thai style basil, long harvest period. 1997 All-America-Selection winner.	• 96 (4 weeks)
Zone: 10	Height: 18"	Light: ○
	<b>BASIL 'Spicy Globe'</b> Compact growth habit, spicy basil flavor. Great to use in patio pots or small gardens.	• 96 (4 weeks)
Zone: 10	Height: 24"	Light: ○

## CATNIP NEPETA CATARIA

Attracts cats, use dried leaves as stuffing for cat toy. Sprinkle crumbled leaves to deter ants.

	<b>CATNIP</b> Lemony-mint scented leaves with white/lavender flowers mid-summer.	• 196 (4 weeks) • 96 (7 weeks)
Zone: 4-7	Height: 36"	Light: ○

## CHAMOMILE

	<b>CHAMOMILE 'German'</b> (Matricaria recutita) Erect habit, small white daisy flowers.	• 96 (6 weeks)
Zone: 7-10	Height: 24"	Light: ○
	<b>CHAMOMILE 'Roman'</b> (Anthemis nobilis) White, daisy flower on 10" stalk. Feathery groundcover.	• 96 (6 weeks)
Zone: 4-8	Height: 4"	Light: ○

## CHIVES ALLIUM SP.

Add mild onion or garlic flavor to soups, salads, sauces, butters, vinegars, meat, and cheese dishes.

	<b>CHIVES 'Garlic'</b> (Allium tuberosum) Delicious mild garlic flavored. Lime-green/white flowers in summer.	• 196 (8 weeks) • 96 (10 weeks)
Zone: 3	Height: 12"	Light: ○
	<b>CHIVES 'Regular'</b> (Allium schoenoprasum) Leaves add fresh and mild onion flavoring to dishes. Rose pink flowers.	• 196 (8 weeks) • 96 (10 weeks)
Zone: 3	Height: 12"	Light: ○

## CILANTRO CORIANDER

Also known as coriander or Chinese Parsley, the fern-like leaves are used for flavoring Mexican and Oriental dishes. Especially tasty in salsas and soups.

	<b>CILANTRO 'Regular'</b> (Coriander) Wide, bright green foliage that is highly fragrant and slow to bolt.	• 96 (4 weeks)
Zone: 7	Height: 18"-20"	Light: ○

DIGITALIS purpurea 'Foxy'

DILL 'Regular'

LAVANDIN 'Provence'

LAVENDER angust. 'Blue Cushion'

DILL 'Fern Leaf'

LAVENDER angust. 'Ellagance Purple'

LAVENDER angust. 'Ellagance Snow'

LAVENDER angust. 'Hidcote Blue'

FENNEL 'Bronze'

HYSSOP

LAVENDER angust. 'LAYLA™ Presto Blue'

LAVENDER angust. 'Munstead'

## DIGITALIS FOXGLOVE

Please see additional ornamental varieties on page 42.

-  **DIGITALIS purpurea 'Foxy'** Biennial. Mixed colors of tubular flowers on spikes. Extract from leaves is used in powerful cardiac medicines. Leaves are poisonous if ingested. • 96 (6 weeks)  
Zone: 5-9 Height: 24"-36" Light: ○

## DILL ANETHUM GRAVEOLENS

Leaves and seeds used for pickling, in vinegars, soups, and salads.

-  **DILL 'Fern Leaf'** Dark, finely divided foliage on basal-branching plants; excellent flavor. *All-America-Selections Winner 1992.* • 196 (4 weeks)  
Zone: 7-9 Height: 18" Light: ○
-  **DILL 'Regular'** Feathery foliage with yellowish/green flowers. Use dried and fresh leaves for savory dishes. • 96 (5 weeks)  
Zone: 7-9 Height: 36" Light: ○

## FENNEL FOENICULUM VULGARE

Fennel bulbs and seeds are used in vegetable combinations, breads, meat & cheese dishes.

-  **FENNEL 'Bronze'** Delicately cut foliage, deep smoky bronze color. Vigorous grower, tender perennial. • 96 (6 weeks)  
Zone: 5-9 Height: 48" Light: ○

## HYSSOP HYSSOPUS OFFICINALIS

Leaves have bitter, minty flavor, and are used in teas, perfumes, and liqueurs.

-  **HYSSOP** Semi-evergreen with deep blue-violet flowers. • 96 (6 weeks)  
Zone: 4-8 Height: 24" Light: ○

## LAVANDIN LAVANDULA HYBRID

A hybrid between English and spike lavender, Lavandin produces an essential oil used to heal.

-  **LAVANDIN 'Provence'** Taller, rot-resistant variety. Lavender-blue flowers bloom throughout summer. • 96 (7 weeks)  
Zone: 5 Height: 30" Light: ○

## LAVENDER LAVANDULA SP.

Aromatic foliage used for aromatherapy, in potpourris, and sachets. Essential oil used to heal ailments.

-  **LAVENDER (*L. angustifolia*) 'Blue Cushion'** Free flowering dwarf habit, heavily aromatic. • 96 (7 weeks)  
Zone: 5 Height: 16" Light: ○
-  **LAVENDER (*L. angustifolia*) 'Ellagance' Series:** First year flowering with large flower spikes on well-branched, bushy plants. • 96 (8 weeks)  
Zone: 5-7 Height: 12"-14" Light: ○
-  **'Ellagance Purple'** Dense, deep purple flower spikes. • 96 (8 weeks)
-  **'Ellagance Snow'** Clean white flower spikes on compact bushy plants. • 96 (8 weeks)
-  **LAVENDER (*L. angustifolia*) 'Hidcote Blue'** Similar to 'Munstead' but with dark, violet-blue flowers. Extremely fragrant. • 196 (7 weeks)  
• 96 (10 weeks)  
• 50V (Avail only)  
• 32 (Avail only)  
Zone: 5 Height: 18" Light: ○
-  **NEW! LAVENDER (*L. angustifolia*) 'LAYLA™ Presto Blue'** Larger flowers on plants that are reliably first-year flowering. Blooms emerge from every internode making a stunning display! *ThinkPlants / Danziger.* • 96 (7 weeks)  
Zone: 5-10 Height: 12"-14" Light: ○
-  **LAVENDER (*L. angustifolia*) 'Munstead'** True English lavender. Delicate, lacy green foliage. Blue flowers. • 196 (6 weeks)

## LEMON BALM MELISSA OFFICINALIS

- LEMON BALM** Attractive, light green leaves. Plant serves as fragrant background to the perennial border. • 96 (6 weeks)  
Zone: 4-9 Height: 36" Light: ○

## LEMON GRASS CYMBOPOGON CITRATUS

- LEMON GRASS (West Indian)** Blades are packed with strong lemon-citrus flavor, used in Asian cooking. Clumping. • 96 (8 weeks)  
Zone: 9-11 Height: 24"-48" Light: ○

## LEMON VERBENA LIPPIA CITRIDORA

- LEMON VERBENA** Semi-evergreen leaves have a strong lemon scent. Grows best in a container with bright light. • 96 (6 weeks)  
Zone: 8 Height: 24" Light: ○

## MARJORAM ORIGANUM MAJORANA

- MARJORAM 'Sweet' (Green)** Leaves with a spicy scent flavor meats, poultry, fish, stuffing and sauces. • 196 (4 weeks)  
• 96 (6 weeks)  
Zone: 7-10 Height: 12" Light: ○

## MINT MENTHA SP.

A popular herb known for its cool, fresh taste and fragrance. Use to flavor sweet dishes and drinks.

- MINT 'Apple' (*M. rotundifolia*)** Large, woolly green leaves, sweet apple mint scent. White flowers. • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●
- MINT 'Chocolate' (*M. spp.*)** Bronzy-green leaves have a mint-chocolate fragrance. A hit with children! • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●

- MINT 'Corsican' (*M. requienii*) 'Mini Mint'** Tiny green leaves on low-growing matted groundcover. • 196 (5 weeks)  
• 96 (7 weeks)  
Zone: 6 Height: 1"-2" Light: ○-●

- MINT 'Lime' (*M. spp.*)** Wonderful lime scent and flavor. Great for flavoring summer drinks! • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●

- MINT 'Orange' (*M. piperata citrata*)** Bronzy-green foliage with strong, citrus-mint scent. • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●

- MINT 'Peppermint' (*Mentha piperata*)** Strong 'true mint' flavor. Drought tolerant plant, good in borders. • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●

- MINT 'Pineapple' (*Mentha suav. variegata*)** Leaves have white variegation and faint fragrance of pineapple. • 96 (5 weeks)  
Zone: 5-10 Height: 12"-24" Light: ○-●

- MINT 'Spearment' (*Mentha spicata*)** Cool 'green' mint flavor, classic ingredient of mint juleps and mojitos. • 96 (4 weeks)  
Zone: 4 Height: 12"-24" Light: ○-●

- MINT 'Strawberry' (*M. spp.*)** Strawberry scent and taste; adds refreshing flavor to cool dishes and drinks. Kids will love this one! • 96 (5 weeks)  
Zone: 4 Height: 10"-12" Light: ○-●

## OREGANO ORIGANUM SP.

Spicy seasoning commonly used in Italian and Spanish dishes. See ornamental varieties on page 67.

- OREGANO 'Common' (*Origanum vulgare*)** Creeping, dark green foliage with pink flowers July-Sept. • 196 (4 weeks)  
• 96 (6 weeks)  
Zone: 4 Height: 12" Light: ○

- OREGANO 'Golden' (*Origanum vulgare aureum*)** White flowers with creeping yellow/green foliage. Great accent. • 96 (6 weeks)  
Zone: 4 Height: 12" Light: ○

## OREGANO ORIGANUM SP. *continued*

	<b>OREGANO 'Greek' (<i>Origanum vulgare</i> 'Greek')</b> Large, dark green, pungent leaves. More upright in growth habit.	• 196 (4 weeks) • 96 (6 weeks)
Zone: 4	Height: 16"-24"	Light: ○
	<b>OREGANO 'Hot &amp; Spicy' (<i>Origanum vulgare</i>)</b> One of the best tasting oreganos! The hot and spicy flavor makes this a great addition to any herb garden.	• 96 (6 weeks)
Zone: 4	Height: 12"-18"	Light: ○
	<b>OREGANO 'Italian' (<i>Origanum onites</i>)</b> Small, light green leaves. Has a sweeter flavor than other oreganos.	• 196 (4 weeks) • 96 (6 weeks)
Zone: 4	Height: 24"	Light: ○
	<b>OREGANO 'Mexican' (<i>Lippia graveolens</i>)</b> Most commonly used herb for commercial dried oregano.	• 96 (7 weeks)
Zone: 7	Height: 12"-24"	Light: ○

## PARSLEY PETROSELINUM SP.

Leaves with celery scent are commonly used as a garnish to meat dishes. Also used to flavor potatoes, soup, and fish dishes.

	<b>PARSLEY 'Curled' (<i>P. crispum</i>)</b> Curled, dark green leaves have celery flavor. Use leave ms.	• 96 (6 weeks)
Zone: 5	Height: 12"	Light: ○
	<b>PARSLEY 'Italian/Flat' (<i>P. neapolitanum</i>)</b> Flat leaves with stronger flavor, superior in cooked dishes.	• 96 (6 weeks)
Zone: 5	Height: 18"	Light: ○

## ROSEMARY ROSEMARINUS SP.

Evergreen plant with pale blue-lavender flowers; tolerates poor soil. Sharp pine-scented leaves flavor meats, vegetables, poultry, stuffing, bread, tea, vinegar, and butters. Flowers and leaves used in potpourri and soaps.

	<b>ROSEMARY 'Arp' (<i>R. officinalis</i>)</b> Tender perennial, but more hardy than other officinalis varieties.	• 96 (8 weeks)
Zone: 6-10	Height: 12"-36"	Light: ○
	<b>ROSEMARY 'Barbecue' (<i>R. officinalis</i>)</b> Upright grower with stiff stems that make it ideal for skewers.	• 96 (8 weeks)
Zone: 8-10	Height: 36"-48"	Light: ○
	<b>ROSEMARY 'Regular' (<i>R. officinalis</i>)</b> Used as a fragrant hedging plant; light blue flowers.	• 96 (8 weeks)
Zone: 7-10	Height: 24"	Light: ○
	<b>ROSEMARY 'Tuscan Blue' (<i>R. officinalis</i>)</b> Upright habit can be trained as a hedge. Bright lavender-blue flowers.	• 96 (8 weeks)
Zone: 8-10	Height: 36"	Light: ○
	<b>ROSEMARY 'Weeping' (<i>R. officinalis</i> 'Prostrata')</b> Trailing dark green foliage with pale blue-lavender flowers.	• 96 (8 weeks)
Zone: 8-10	Height: 6"	Light: ○

## RUE RUTA GRAVEOLENS

	<b>RUE</b> Shrubby evergreen with blue-green, fern-like foliage. Bitter leaves are used to make disinfectants. Yellow flowers bloom June through August. Don't plant near other vegetables as it makes the soil bitter too! <i>*Not eligible for shipments into Canada.</i>	• 96 (7 weeks)
Zone: 4-10	Height: 36"	Light: ○

## SAGE SALVIA SP.

Spicy scented leaves that gourmets love! Peppery spice flavors poultry, pork, sausage, tea, and cheese. Please see ornamental Salvia varieties in the perennial section on page 76.

**SAGE 'Berggarten' (S. officinalis)** Large, round, gray-green leaves. Good as landscape plant also. • 96 (6 weeks)

Zone: 6 Height: 24" Light: ○

**SAGE 'Garden' (S. officinalis)** Violet flowers in June; woolly gray leaves look good in landscape. • 96 (6 weeks)

Zone: 5 Height: 24" Light: ○

**SAGE 'Golden Icterina' (S. officinalis)** Golden variegated leaves; ornamental AND edible! • 96 (6 weeks)

Zone: 6 Height: 24" Light: ○

**SAGE 'Pineapple' (S. rutinifolia)** Scarlet flowers with pineapple-scented leaves. Use in salads or butters. • 96 (4 weeks)

Zone: 8 Height: 36" Light: ○

**SAGE 'Purple' (S. officinalis purpurea)** Same wonderful sage flavor as straight officinalis, but with deep blueish-purple foliage. Stunning in the landscape! • 96 (6 weeks)

Zone: 6 Height: 18" Light: ○

**NEW! SAGE 'Silver Scent' (S. officinalis)** Excellent for both culinary and decorative uses! Blue flowers appear in the spring, and foliage is tasty when used for cooking. Darwin Perennials PPAF. • 96 (6 weeks)

Zone: 5-9 Height: 21"-24" Light: ○

**SAGE 'Tricolor' (S. officinalis)** Showy variegated maroon, green, & white foliage. Flavor is similar to garden sage. • 96 (6 weeks)

Zone: 6 Height: 24" Light: ○

## SAVORY SATUREJA SP.

Spicy, peppery leaves flavor meat, fish, poultry, potatoes, and vegetables.

**SAVORY 'Winter' (S. montana)** Semi-evergreen, white flowers. Sharper flavor than summer savory. • 96 (8 weeks)

Zone: 3-8 Height: 12" Light: ○

## STEVIA REBAUDIANA

**STEVIA** A tropical plant with bright green leaves and small clusters of white flowers. Sometimes called the 'sugar herb', leaves are much sweeter than table sugar. A natural sweetener with no calories! • 196 (4 weeks) • 96 (5 weeks)

Zone: 10-11 Height: 5"-8" Light: ○

## TARRAGON ARTIMISA DRANCULUS

Commonly used in French cooking, leaves flavor steaks, seafood, poultry, sauces, marinades, and vinegars.

**TARRAGON 'French'** Fine-textured, dark green foliage that rarely flowers. Prefers poor, dry soil. • 96 (7 weeks)

Zone: 4-9 Height: 24" Light: ○

## THYME THYMUS SP.

Aromatic leaves are used in potpourris, herbal remedies, and cuisine depending on the variety. Please see the perennial section on page 84 for additional Thyme varieties.

**THYME, Creeping 'Mother of Thyme' (T. serpyllum)** Purple flowers on dark green, aromatic leaves. Can handle light foot traffic. Use in potpourris and sachets for aromatherapy. • 196 (5 weeks) • 96 (7 weeks)

Zone: 5-9 Height: 2"-6" Light: ○

**THYME, Upright 'English' (T. vulgaris)** Tiny, lavender flowers June-July. Fragrant, gray-green leaves; culinary variety. • 196 (5 weeks) • 96 (6 weeks)

Zone: 5-9 Height: 8"-10" Light: ○

**THYME, Upright 'French' (T. vulgaris)** Similar to English but with smaller leaves and a sweeter flavor. A "must-have" for French cooking. • 196 (5 weeks) • 96 (6 weeks)

Zone: 5-9 Height: 10"-12" Light: ○

# WESTCOUNTRY LUPINES

## GENERAL INFORMATION

- Production: Excellent for larger 2 to 3 gallon containers; large flower spikes closely packed with individual bells, strong and unique colors. Although they are a hardy perennial to zone 4, this series will shine as a pot crop with a huge impact on display at retail. The massive display of flowers will also support a much higher price point than normal lupine varieties.
- Hardiness: Tested to USDA Zone 4
- Foliage: Soft green to grayish-red, the finger like leaves make whirls at the top of the leaf stems.
- Flower Color: 14 color assortment of solids and bi-colors; see images in the catalog pages on page 63.
- Flowering Time: Late April to Early June.
- Flowering Height: 24-36" spikes of single flowers.
- Use for: Cottage/landscape garden effect in borders, premium patio/container centerpiece.
- Landscape Culture: Sun, partial shade; moderately fertile light soils that are slightly acidic (Lupines dislike limey soils).
- Protected: Must Have Perennials EU and USA; the breeder asserts ownership of all rights in this plant.
- **Availability:** 72cell liners will be available starting in wk34, 2023. 32cell liners available starting in wk2, 2024.  
Please contact your broker sales rep for pricing information.

## GROWER INFORMATION

### PLANTING AND CROP TIMING

- With an overall width of 24" to 30", this series should be treated as a large and premium crop due to their size and price point.
- We recommend that growers plant (1) 72cell liner in a 2-gallon pot in late summer to early fall. Westcountry lupine create the biggest display when bulked through the fall and winter months and allowed to bloom with the natural spring season of the location they're grown at. The more time given to bulk at cool temperatures, the more impressive the flower display.
- The Westcountry lupine can also be planted into finished containers from cooled/vernalized liners in the spring, but the key is bulking. The larger the root system and the more crowns above the soil, the more flower spikes that will bloom in the spring.

### TEMPERATURE AND LIGHT

- When actively growing or bulking, maintain night temperatures of 45°F or higher. When the plants are well-rooted and the foliage reaches the edge of the finished container, cool the temperatures down to 30-40°F nights. Lupine love cold!! But it is also best to keep the crop above 25°F to avoid complete dormancy.
- Vernalization is beneficial; the more time given to bulk at temperatures below 40°F, the more flower spikes will emerge. The Westcountry are not day-length neutral so will bloom in spring as days become longer.
- The Westcountry series will do best grown in full sun to part-shade conditions.

### PINCHING AND PGR'S

- Do not pinch the new growth (crown) at the center of the plant. It is best to control plant growth with temperature. Cool them down to slow them down, warm them up to speed them up! Lupines respond very quickly to increases or decreases in temperature.
- A paclobutrazol PGR drench can also be applied to help maintain desired height, especially as temperatures increase in spring.

### MEDIA, IRRIGATION AND FERTILIZATION

- Soil media in the finished pot needs to be porous, with excellent drainage. Maintain a pH on the acidic side, but not lower than 5.8.
- Liquid feed at 100ppm nitrogen during the bulking stage, but make sure the fertilizer used is low in phosphorus.
- Plants can be grown evenly moist but not wet. Be very careful about watering if the plants are kept on the colder side; though the plants will require some supplemental water, avoid over-watering as crown rot is possible.

### PESTS AND DISEASES

- After potting into the final container, apply a preventative fungicide drench.
- Other diseases that could be an issue such as Anthracnose and Powdery Mildew can easily be controlled with a fungicide spray.
- Clean up any dead leaves to prevent rot and disease issues.
- Insects that affect lupines include Aphids and Leaf Miner. Scouting for any issues along with a preventative drench and spray program should help prevent most pest infestations and diseases.

### UNIFORMITY AND VIGOR

- Because they are from tissue culture, the Westcountry Lupine varieties are extremely stable, uniform and vigorous.
- Growers are recommended to plant one 72cell liner directly into a finished container, 2 gallon or larger.
- Under the right conditions, plants will fill out the finished container within 8 - 10 weeks. But keep in mind, they need cold to set flowers so cool down once the pots are filled to the edges.
- It is important to keep the dense crowns clean from debris during the cooling and bulking period.
- Varieties bloom very uniformly across each color, sending up one large bloom first. Secondary blooms will begin to form shortly after which gives these plants a very long shipping window.

SHIPPING: The first large blooms occur within a very uniform window for each variety. Pictured here is 'Persian Slipper'
